# Developing Bomboré into a World-class Gold Deposit

September 2011

# **Forward Looking Statements**

#### **OREZONE**

This Presentation may contain "forward-looking information" which may include, but is not limited to, statements with respect to: political conditions and government regulations in foreign countries; timing of the receipt of governmental approvals and/or acceptances; targets, estimates and assumptions in respect of gold future gold production and prices; amount and type of future capital expenditures and capital resources; mineral reserves and mineral resources; anticipated grades; recovery rates; future financial or operating performance; costs and timing of the development of new deposits; costs, timing and location of future drilling; earning of future interests in various permits; production decisions; costs and timing of construction; operating expenditures; costs and timing and nature of future exploration; and environmental and reclamation expenses. Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", or "believes" or variations (including negative variations) of such words and phrases, or state that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company and/or its subsidiaries and/or its affiliated companies to be materially different from any future results. performance or achievements expressed or implied by the forward-looking statements. Such factors include risks related to changes in, and volatility of, the price of gold; risks associated with operating in foreign jurisdictions; the speculative nature of gold exploration and development projects; permitting and title risks; risks relating to potential changes to governmental regulation; risks associated with the accuracy of mineral resource and reserve estimates; risks related to the fact that the Company has a history of losses and expects to incur losses for the foreseeable future; risks related to the reliance on the Company's management team and outside contractors; risks related to drill shortages; risks associated with sample backlogs at assay laboratory facilities; risks related to the Company's ability to finance the exploration and development of its mineral properties; risk relating to misrepresentations; uncertainties related to title to the Company's mineral properties; risks relating to health concerns; environmental risks; operational risks and hazards inherent in the mining industry; risks associated with the potential inability to maintain available infrastructure; risks related to the potential unavailability of insurance to cover certain risks; risks related to increased competition in the mining industry; risks related to currency fluctuations; risks related to the fact the Company does not intend to pay dividends in the foreseeable future; risks that shareholders' interest in the Company may be diluted in the future; factors that have historically made the Company's share price volatile; risks for United States investors associated with possible PFIC status, as well as those risk factors identified in the Company's publicly filed disclosure documents available at www.sedar.com. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results to differ from those anticipated, estimated or intended. Forward-looking statements contained herein are made as of the date of the applicable public record document which the information is derived from and the Company has disclaimed any obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements due to the inherent uncertainty therein.

All figures in US Dollars

# **Background**

#### **OREZONE**

### **Orezone Resources**

1995 - 2009

#### **Essakane**

 $1.5 \rightarrow 5.3 \text{ Moz}$ 

### **Progress**

- ☑ Permits
- ☑ Debt Facility
- ☑ Start Construction

Buys Orezone (OZN.T) \$350 M

#### **Orezone Gold**

2009 (ORE.T)

#### Same team

+ 3 gold projects

#### **Bomboré**

 $0.9 \rightarrow 3.5 \text{ Moz} \rightarrow +5 ?$ 

### **Market Cap**

Jan. 2009 \$20 M

Sep. 2011 \$320 M

# **Highlights**

#### Bomboré - World-class potential and location

- 3.5 Moz (1.6 M&I + 1.9 Inferred)
- 35,000 oz gold per vertical meter
- 60 m avg. drill depth to date & open below
- 170,000 m drill program to get to 120 m (>60% complete)
- 85 km from capital of Burkina Faso, adjacent to highway

#### Solid financials

• \$40 million cash, 83.7 million shares, no warrants

#### Strong institutional & retail investor support

• Passport Capital, JP Morgan, Van Eck, Tocqueville...

#### Near-term catalysts

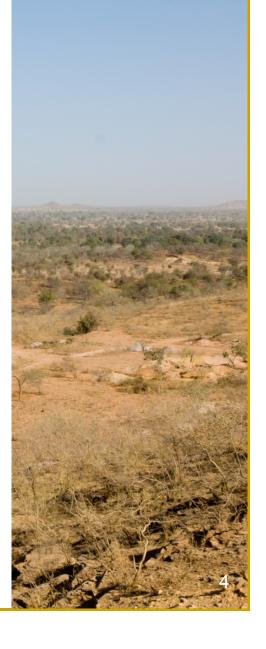

Q3 to Q1-2012 Q2-2012 Q3-2012

Drilling Results Resource Update Feasibility Study

#### Analyst coverage: Targets \$5.00 - \$7.50 / share

• BMO, Canaccord, CIBC, Desjardins, GMP, Raymond James...

# **CIL - Preliminary Economics**

#### **OREZONE**

| Mineral Resource in mine plan | 2,506,608 oz |  |  |  |
|-------------------------------|--------------|--|--|--|
| Average Grade                 | 0.94 g/t     |  |  |  |
| Maximum Throughput            | 9.3 Mt       |  |  |  |
| Average Recovery              | 87%          |  |  |  |
| Mine Life                     | 9.1 yrs      |  |  |  |
| Average annual production     | 240,000 oz   |  |  |  |
| Waste to ore strip ratio      | 3.54         |  |  |  |
| Direct Cash Cost              | \$694 / oz   |  |  |  |
| Royalty @ 4%                  | \$44 / oz    |  |  |  |
| Capital Expenditure           | \$499.5 M    |  |  |  |
| Sensitivity: Gold Price \$    | 1100         |  |  |  |

#### **Key Parameters**

- \$1000/oz gold pit shell, \$1100 revenue
- 2010 1.6 Moz M&I and 1.9 Moz Inf
- 120,000 m of drilling
- Average drill depth 60m

#### To Improve the Economics:

- Increase resources with drilling
- Better continuity, lower strip
- Build operation in phases
- Higher gold price assumptions

| Sensitivity: Gold Price \$ Oil Price \$ | 1100<br>80 | 1400<br>110 | 1700<br>140 |
|---|------------|-------------|-------------|
| NPV (Orezone, After-tax) (0%) (1)       | \$207.6 M  | \$536.9 M   | \$892.6 M   |
| NPV (Orezone, After-tax) (5%)           | \$43.7 M   | \$288.7 M   | \$547.8 M   |
| IRR After tax                           | 6.9%       | 16.7%       | 25.5%       |

<sup>(1)</sup> Represents Orezone's Burkina Faso subsidiary cash flows net of royalties and local taxes.

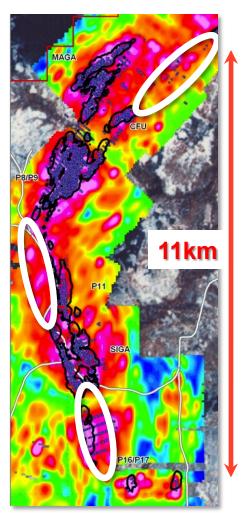

# **CIL - Operating Costs**

| Category                 | Total Cost<br>\$ Millions | Avg. Cost<br>\$ / t milled | Avg. Cost<br>\$ / oz |
|--------------------------|---------------------------|----------------------------|----------------------|
| Mining                   | \$633.7                   | \$7.64                     | \$290                |
| Processing               | \$648.0                   | \$7.81                     | \$297                |
| General Services         | \$229.0                   | \$2.76                     | \$105                |
| Transport & Refining     | \$5.5                     | \$0.07                     | \$3                  |
| <b>Total Cost</b>        | \$1,516.2                 | \$18.27                    | \$694                |
| Royalty to Gov't         | \$96.1                    | \$1.16                     | \$44                 |
| <b>Cost with Royalty</b> | \$1,612.4                 | \$19.43                    | \$738                |

### **2011 Resource Growth Plan**

#### **OREZONE**

### \$24 M, 170,000 m infill and expansion drill program

|        | Total Drilled<br>m | Avg. Depth<br>m | RC Drilling<br>m | Core Drilling<br>m |
|--------|--------------------|-----------------|------------------|--------------------|
| < 2010 | 120,000            | 60              | 105,000          | 15,000             |
| 2011   | 170,000            | 120             | 85,000           | 85,000             |
| Total  | 290,000            | 120             | 190,000          | 100,000            |

# Results to date Compared to 2010 resource model (60 % complete, 40% reported)

#### 1. Higher grades

• Oxides +37%, Sulphides +35%

#### 2. Narrower widths

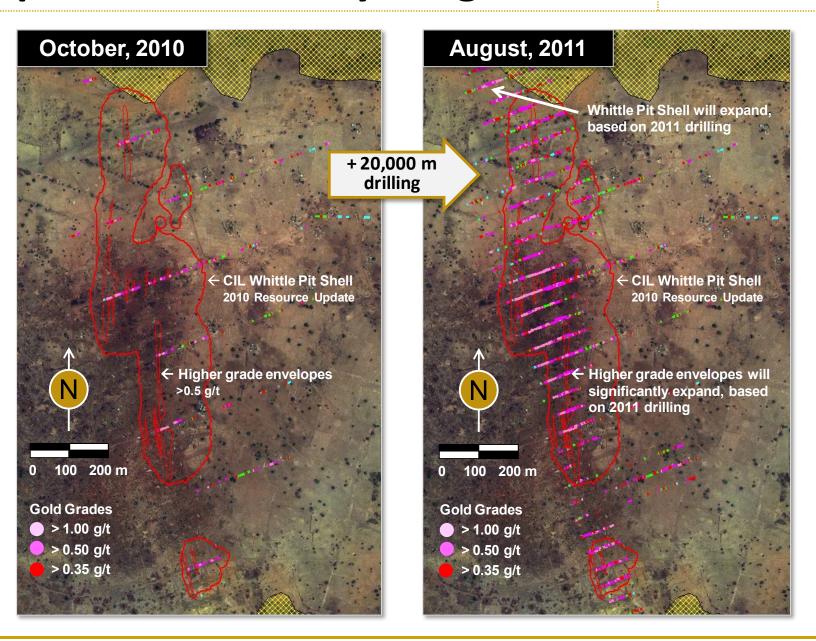

Oxides 94%, Sulphides 71%

#### 3. Improved continuity

 Siga S & Siga W merged into one 3.7 km continuous zone with up to 200 m of vertical continuity and open at depth

15

# Improved Continuity – Siga South

# **Uranium – Niger – 67% owner**

#### **OREZONE**

#### New discovery adjacent to producing mines

**Niger:** 3<sup>rd</sup> largest uranium producing region worldwide by 2014

- Brighton Energy Corp
- 5 permits total 4,000km<sup>2</sup>
- Adjacent to operating mines (Areva)
- Adjacent to GoviEx (Friedland)
- Along main structures with favourable geology
- Airborne geophysics completed Q3
- Positive results to date:
  - **Zeline 1:** "14 of 30 holes have >200 ppm eU<sub>3</sub>O<sub>8</sub>, in same sequence of Carboniferous rocks along with a similar structural setting to that of the neighboring mines"
  - Assouas 1: "20 of 24 holes have >100 ppm  $eU_3O_8$ , including 534 ppm  $eU_3O_8$  over a cumulative 5.1 m in hole AM10056"

# **Corporate Social Responsibility**

#### **OREZONE**

#### **Water for Communities**

- Support communities by establishing water and sanitation services
- Over \$650,000 raised and spent to date for water projects / Ryan's Well Foundation a partner

#### **Education and Training**

- \$190,000 invested to date
- Collaborative research with Universities
- 4 PhD students supported
- Microscope donated to University of Ouagadougou
