

**C Difficile: Handling an Outbreak**

**A Lesson in Communications & Culture**

**Cape Breton District Health Authority**  
Presented By  
*Dr. Dianne Calvert Simms*  
*Martha McLean*

---

---

---

---

---

---

---

---

**Cape Breton District Health Authority**

- Population 130,000
- Provides acute care, mental health & addictions, continuing care, community health, prevention & promotion services
- Has 484 acute care beds in 8 hospitals, & 206 long term care beds.
- Has an annual budget of 238 million +.
- Employs 3,900 people, 270 physicians.

---

---

---

---

---

---

---

---

**Pre - Outbreak**

- Internal concerns regarding the adequacy of IPAC staffing resources
- Recognition of program limitations – accountabilities & responsibilities
- Organizational ownership of IPC
- Management Structure changes
- Fiscal Reality, District Pressures
- Internal & External reviews
  - SPD
  - Provincial Infectious Disease Advisory Committee of Ontario
  - Accreditation Canada
- Off the corner of the desk.....Building a Business Case

---

---

---

---

---

---

---

---

### And then the Worst Care Scenario..... Or the Perfect Storm

← Staffing, resources, responsiveness, culture, communication

→ Health Care Associated Infections

= An Outbreak Situation

---

---

---

---

---

---

---

---

### Outbreak Responsiveness

- Notification
- Recognizing the need for help
- The Outbreak Team
  - Leadership
  - Outbreak management policy and procedure
  - Shared accountability – breaking the silos
- Organizational culture – breaking the barriers
- Surveillance practices and supports
- COMMUNICATION

---

---

---

---

---

---

---

---

### Outbreak Management

- Leadership commitment
- Accountabilities of the District Outbreak Team
- Team conflicts
- Surveillance
- Case Definition
- COMMUNICATION
- Education
- Epidemiology
- Reports

---

---

---

---

---

---

---

---

## Communications Plan

### Internal

- Management & Organizational briefings
- CEO/VP walk about
- Intranet/Internet/face to face - Education for physicians, staff, patients and families
- Physical environment
- Dress Code policy
- Visitor Restrictions

### External

- Public disclosure
- Public roles and accountabilities
- Managing fear
- Deaths

---

---

---

---

---

---

---

---

---

---

---

---

## Outbreak HA Profile

---

---

---

---

---

---

---

---

---

---

---

---

## Outbreak Total Cases

---

---

---

---

---

---

---

---

---

---

---

---

## Outbreak Resolution

- Criteria to declare outbreak over
- Lessons Learned
  - Knowledge to Practice
  - Communication
  - Organizational Exhaustion
- Restoring Confidence
- Maintaining momentum
- Transforming the culture

---

---

---

---

---

---

---

---

## Infection Prevention and Control.....

is everyone's responsibility.....

---

---

---

---

---

---

---

---

## Moving Forward: Adjusting the Sails

- Transparency and reports -Responding to report recommendations
- Added resources
- Changing reporting structure
- Education and Communication
- Restoring Faith

.....and in the words of Dr. Gardam

*"It can happen to any organization-we are all often on the brink of an outbreak....you are doing all of the right things-nothing that we can recommend except to move forward with the hard part-the transformation of the culture to own responsibility for IPAC...everyday in every way"*

---

---

---

---

---

---
