

HIGH GRADE GOLD IN A WORLD CLASS JURISDICTION

CAPE RAY GOLD PROJECT

Beaver Creek – September 2019

DISCLAIMER

Disclaimer and Forward Looking Statements

This presentation is not a prospectus nor an offer of securities for subscription or sale in any jurisdiction nor a securities recommendation. The information in this presentation is an overview and does not contain all information necessary for investment decisions. In making investment decisions, investors should rely on their own examination of Matador Mining Limited (Matador or the Company) and consult with their own legal, tax, business and/or financial advisers in connection with any acquisition of securities or interest in the Cape Ray Project. The information contained in this presentation has been prepared in good faith by the Company. However, no representation or warranty, express or implied, is made as to the completeness or adequacy of any statements, estimates, opinions or other information contained in this presentation. To the maximum extent permitted by law, the Company, its directors, officers, employees and agents disclaim liability for any loss or damage which may be suffered by any person through the use of, or reliance on, anything contained in or omitted from this presentation. Certain information in this presentation refers to the intentions of the Company, but these are not intended to be forecasts, forward looking statements, or statements about future matters for the purposes of the Corporations Act 2001 (Cth) or any other applicable law. The occurrence of events in the future are subject to risks, uncertainties and other factors that may the Company's actual results, performance or achievements to differ from those referred to in this presentation to occur as contemplated. The presentation contains only a synopsis of more detailed information available in relation to the matters described in this document and accordingly no reliance may be placed for any purpose whatsoever on the sufficiency or completeness of such information and to do so could potentially expose you to a significant risk of losing any of the property invested by you or incurring by you of additional liability. Recipients of this presentation should conduct their own investigation, evaluation and analysis of the business, data and property described in this presentation. In particular, any estimates or projections or opinions contained herein necessarily involve significant elements of subjective judgment, analysis and assumptions and you should satisfy yourself in relation to such matters.

Mineral Resources

The information in this Presentation that relates to the Mineral Resource estimate for the Cape Ray Gold Project was announced on 30 January 2019. Matador confirms that it is not aware of any new information or data that materially affects the information included in the announcement of 30 January 2019 and that all material assumptions and technical parameters underpinning the Mineral Resource estimate in the announcement of 30 January 2019 continue to apply and have not materially changed.

Exploration Target

The information in this Presentation that relates to the Exploration Target for the Cape Ray Gold Project was announced on 7 August 2018. The potential quantity and grade of the Exploration Target is conceptual in nature and therefore is an approximation. There has been insufficient exploration to estimate a Mineral Resource across the entire Project and it is uncertain if further exploration will result in the estimation of a Mineral Resource across the entire Project. Matador confirms that it is not aware of any new information or data that materially affects the information included in the announcement of 7 August 2018.

Exploration Results and Metallurgical Testwork Results

The information in this Presentation that relates to exploration results and metallurgical testwork results was announced on 5 April 2018, 31 January 2019, 26 February 2019, 12 March 2019 and 9 September respectively. Matador confirms that it is not aware of any new information or data that materially affects the information included in those announcements.

MATADOR MINING

80km of continuous strike along Cape Ray Shear¹

ONE OF THE MOST PROSPECTIVE, YET UNDER
EXPLORED GOLD REGIONS IN NORTH AMERICA

Strong platform for development

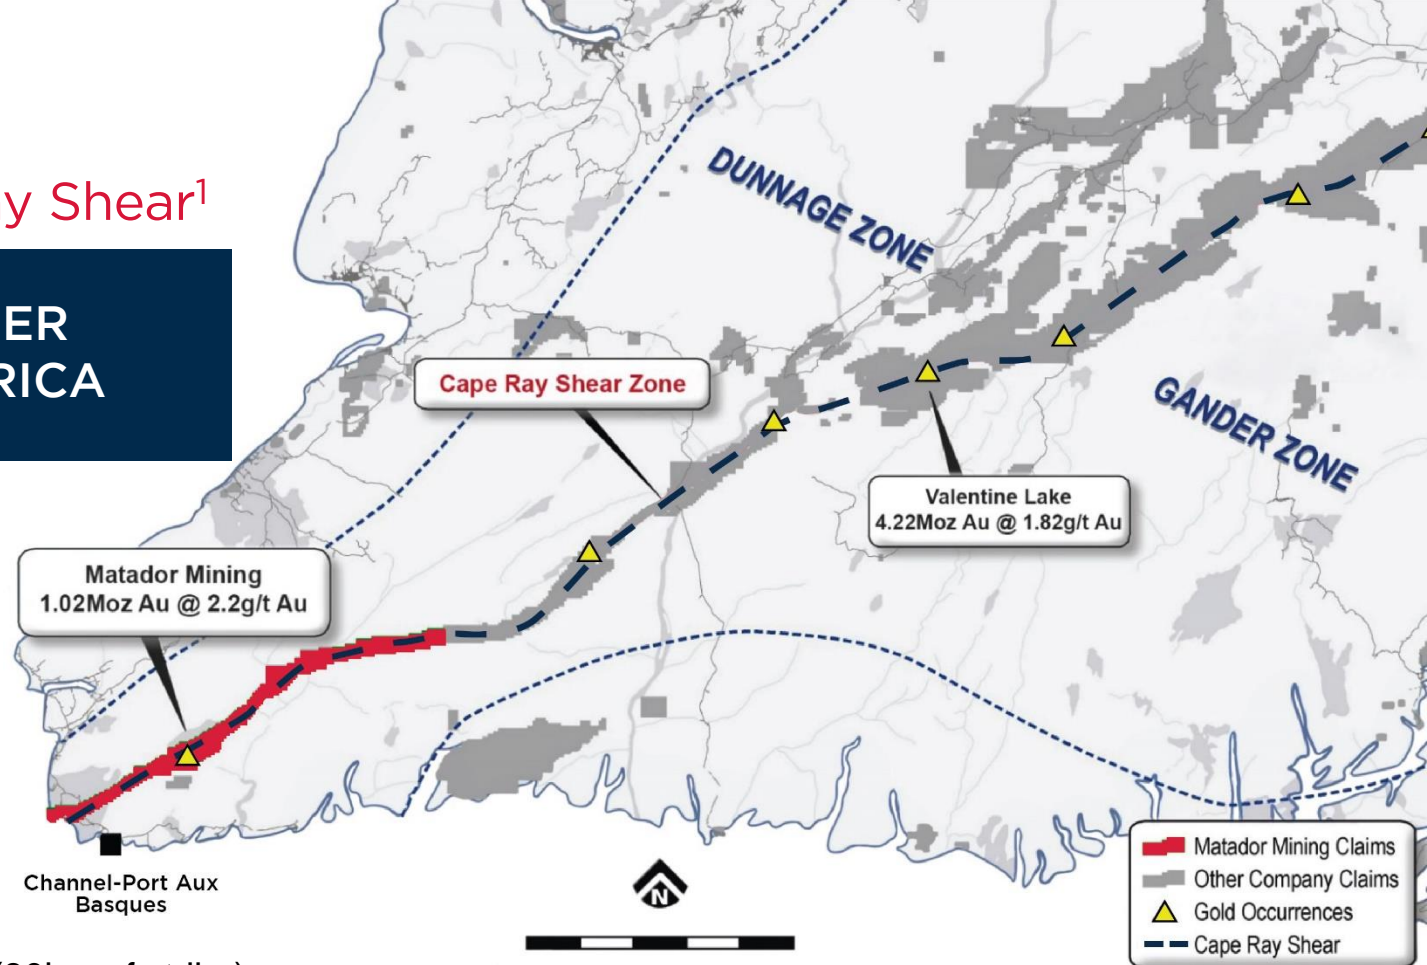

- Existing resource - 1.02Moz at 2.2g/t Au² (66% indicated)
 - 605koz at 2.90g/t < 200m from surface
- Development study underway (1Q 2020)
 - Targeting high-grade open pit ore
 - World class jurisdiction w/ supporting infrastructure

Significant growth potential through exploration

- Largest continuous holder of ground along Cape Ray Shear (80km of strike)
- 12,000m drill program underway (64 holes)

Under-valued compared to gold peers³

- EV / resource oz - MZZ (\$23/oz) vs. peers (\$57/oz)
- Potential re-rating post development study (1Q 2020)

HERE COME THE AUSTRALIANS

\$3bn spent by Australian groups in Canada during the past 12 months

ONE OF THE FIRST JUNIOR ASX GROUPS TO IDENTIFY CANADA AS A SIGNIFICANT OPPORTUNITY

Limited opportunities in Australia has encouraged movement abroad

- Strong valuation on ASX
- Limited number of new discoveries/development assets locally
- Current development assets are well understood with potential legacy issues

Change in TSX investor appetite

- Focus on new growth industries (Crypto and Marijuana)
- Funding difficult for TSX companies has resulted in limited spending on exploration in past decade

Canada – a world-class jurisdiction for resource project

- Low geopolitical risk
- Skilled workforce
- Well understood mining regulatory environment

St Barbara Limited proposed acquisition of (\$768m);

Newcrest Mining Limited acquisition of Imperial Metals Corp's Red Chris mine (\$1.1bn);

Northern Star Resources Limited acquisition of Sumitomo Corp's Pogo gold mine (\$347m).

In 2018, Hancock entered the register of Riversdale, through a placement for 19.99% of the company at a weighted average subscription price of \$1.70 per share, for a total cost of approximately \$100M.

Should the Offer result in Hancock achieving 100% ownership of Riversdale, the cost of the Offer will total approximately \$644M, for a total Hancock investment of approximately \$744M, at a weighted average price of \$2.50 per share.

NEWFOUNDLAND

The next big gold producing district?

Location

Major island off the east coast of Canada

Infrastructure

World class roads, water , power (grid) & workforce

Major industries

Forestry, fishing and tourism

Port Aux Basques

Established town 25km from Cape Ray Project

Mining Sector

Strong support from the government
11 operations throughout jurisdiction (NF & Lab.)

#11

2018 Fraser Institute Global
Investment Attractiveness Index

GOLD ON THE CAPE

Project Overview

EXISTING PLATFORM FOR QUICK PRODUCTION WITH SIGNIFICANT GREENFIELD EXPLORATION UPSIDE

Shallow high-grade mineralisation from surface

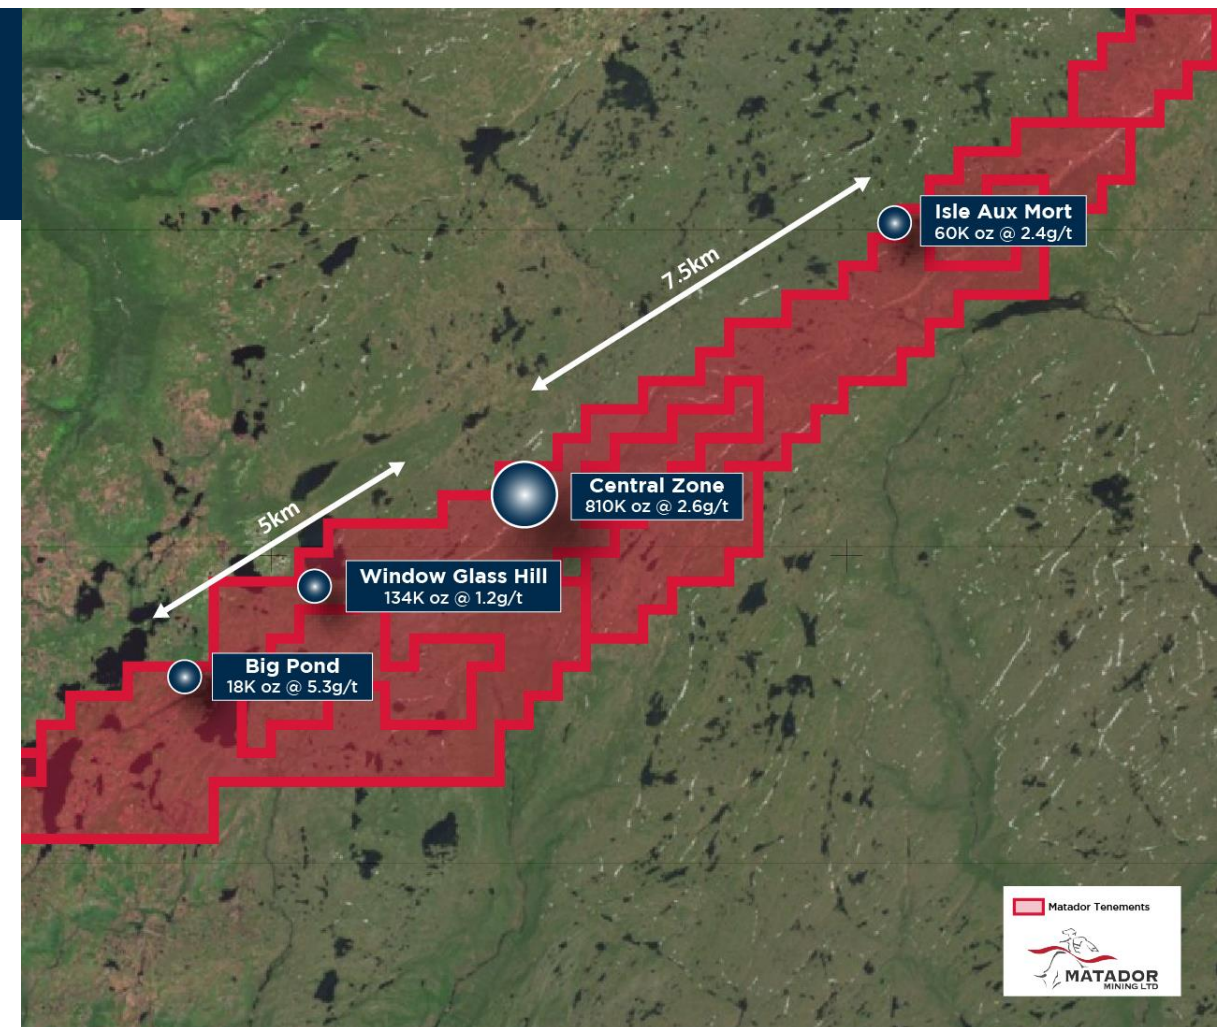

- JORC (2012) Resource – 1.02M oz at 2.2g/t¹
- 4 separate deposits across 12km
 - 425koz at 2.5g/t < 100m from surface

Largest holder of continuous ground along the shear - 80km along strike

- Majority of ground untested with exploration
- All discoveries have been outcropping – majority of ground under shallow cover
- Largest drill program in +30yrs underway – 12,000m

Central Zone – Platform for production

- 810,000 oz at 2.6g/t¹
- Multiple high grade shallow deposits
 - 300koz at 3.05g/t Au < 100m from surface
 - 605koz at 2.90g/t Au < 200m from surface

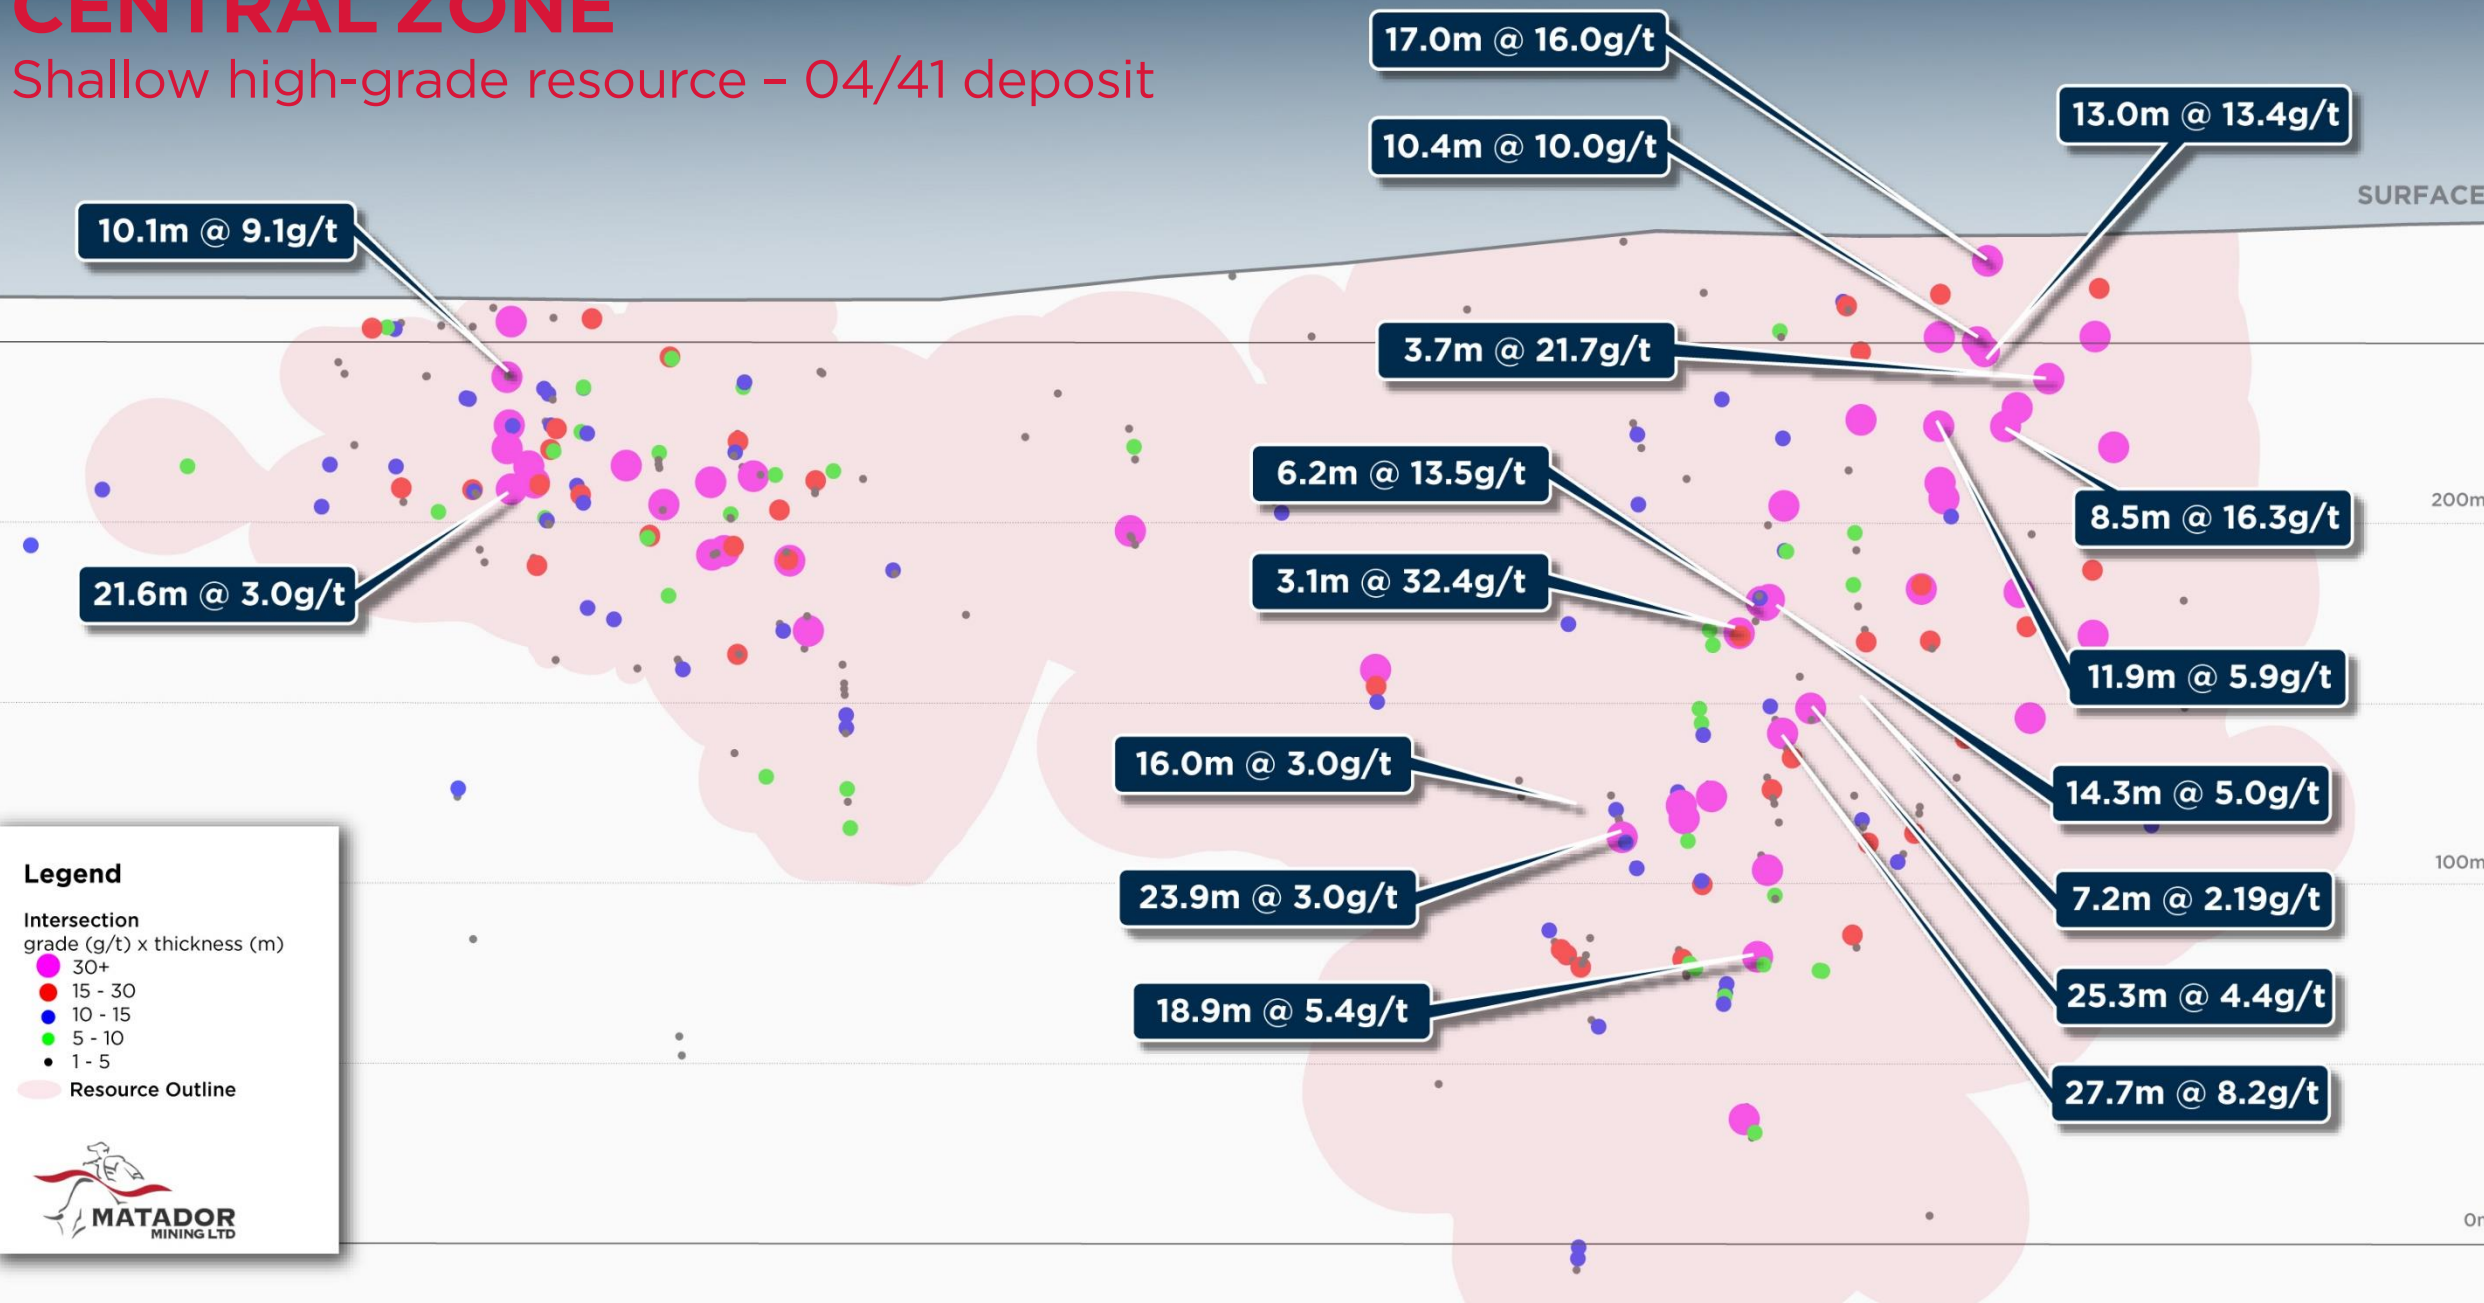

1 – ASX Announcement 30th January 2019

CENTRAL ZONE

Shallow high-grade resource - 04/41 deposit

100m

PATHWAY TO PRODUCTION

Central Zone - Cornerstone for future development

HIGH-GRADE MINERALISATION FROM SURFACE TO DRIVE EARLY RETURNS & PRODUCTION

Development study underway - 1Q 2020

- Targeting high-grade ore from open pit
- Base load production from Central Zone w/ additional feed from satellite pits

Plant

- CIL facility
 - *Metallurgical testwork – 96% recoveries CIL¹*
- Study will assess throughput between 1Mtpa and 1.5Mtpa
- Aspirations to produce ~100,000oz Au pa

Environmental approval

- Significant progress regarding Environmental Assessments
- Timeline indicates construction to commence by 2022
 - *Historical ownership has enabled advanced submissions*

- 1 - 10 BILLION
- 10 - 20 BILLION
- > 20 BILLION

*First world jurisdiction only (Australia, Canada, USA)
OP operation only (excludes projects with combined OP & UG)
Production between 75,000oz Pa and 300,000oz Au pa

Source: S&P Global
Data: Appendix 3

UNTOUCHED EXPLORATION POTENTIAL

75km of untested greenfield exploration*

LIMITED HISTORICAL EXPLORATION UNTESTED BY MODERN TECHNIQUES

Finding the next gold deposit at Cape Ray

- Majority of ground has received little to no exploration
- All current deposits are outcropping at surface
 - *Majority of ground has shallow cover/till*
- Multiple targets previously identified but no drilling

Significant greenfield exploration programs underway

- 4 targets to be drilled
 - *1,500m drill program*
- Targets identified through geological and structural mapping supported by soils and rock chip sampling

Identifying new target

- Further geophysical (EM & IP), structural mapping and geochem at existing and new anomalies

TOTAL	7.69	2.7	660	6.56	1.7	360	14.25	2.2	1,020

APPENDIX 2

Exploration Target

Exploration Target of 30 to 36 million tonnes at a grade range of 1.4 to 2.4 g/t Au for 1.3Moz to 2.8Moz¹

The potential quantity and grade of the Exploration Target is conceptual in nature and therefore is an approximation. There has been insufficient exploration to estimate a Mineral Resource across the entire Project and it is uncertain if further exploration will result in the estimation of a Mineral Resource.

Considers 35% of the total strike extent

Conservative discovery and productivity metrics assumed

Extensional Resource drilling along strike and at depth

5 km
Central Zone, Big Pond,
Isle aux Mort, WGH

Drill target generation:

Soil geochemical survey, rock chip,
mapping, geophysics

14km
Brownfields Exploration Target

66km
Exploration target not yet defined

To be expanded as current
programs completed. Significant
land package to exploit through
considered, systematic exploration

80km
Total strike of Cape Ray Shear Zone under tenure

APPENDIX 3
