

One of Guyana's Leading Explorers

Corporate Presentation

September 2025

TSX: GTWO

OTCQX: GUYGF

Forward Looking Statements

This presentation contains certain forward-looking statements. Wherever possible, words such as "may", "will", "should", "could", "expect", "plan", "intend", "anticipate", "believe", "estimate", "predict" or "potential" or the negative or other variations of these words, or similar words or phrases, have been used to identify these forward-looking statements. These statements reflect management's current beliefs and are based on information currently available to management as at the date hereof. Forward-looking statements involve significant risk, uncertainties and assumptions. Many factors could cause actual results, performance or achievements to differ materially from the results discussed or implied in the forward-looking statements. These factors should be considered carefully and readers should not place undue reliance on forward-looking statements. Although the forward-looking statements contained in this presentation are based upon what management believes to be reasonable assumptions, the company cannot assure readers that actual results will be consistent with these forward-looking statements. The company assumes no obligation to update or revise them to reflect new events or circumstances, except as required by law. Dan Noone, CEO and Director of G2 Goldfields Inc., is the qualified person, within the meaning of NI 43-101 and has reviewed the technical content of this presentation.

Highlights - G3 Spin-Out Unlocking Greater Shareholder Value

Large, High-Grade Resource

- 2.5km N-S structure controlled by G2 within 5km known mineralized belt
- Average 9 g/t Au (Ind) at Oko Main UG, remains open

New Oko Gold Discovery

- Located <10 kms north of existing resource
- 350m vertical; remains openTo be included in upcoming

MRE in Q4/25

720m strike length defined.

Value Driving Catalysts

· Continued drill results

- Updated MRE in Q4/25 to include new Oko discovery and drilling to Sep 2025
- PEA in Q4/25

Premier Jurisdiction

- Guyana: Leading country to explore, permit and mine in the Guiana Shield
- Ability to advance projects quickly

G3 Spin-Out

- Spin-out of non-core assets + new acquisitions (in process)
- Past high-grade producers + rest of exploration portfolio
- Diverse regional program

Management Track Record

 Discovered, financed, and built the Aurora Mine, Guyana's largest gold mine (~7 Moz via Guyana Goldfields)

Guyana – Growing Economy & Infrastructure

- ▶ World's fastest-growing economy, real GDP growth of 64% (2022), 38% (2023), 44% (2024)
- ▶ Mining was 5% of GDP (2022)
- ► Continued strong economic forecasts

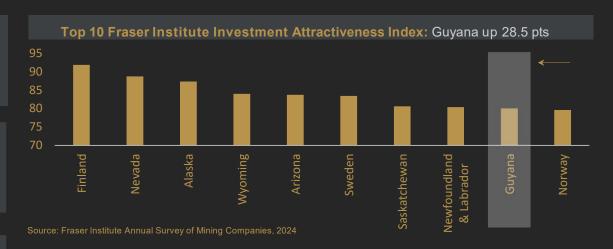

- ➤ Global leader in total offshore oil discoveries since 2015 - fueled growth and established Guyana as a key strategic oil producer for the West
- ▶ 900,000 barrels of oil per day, with plans to increase to 1.7 million of oil per day by 2030

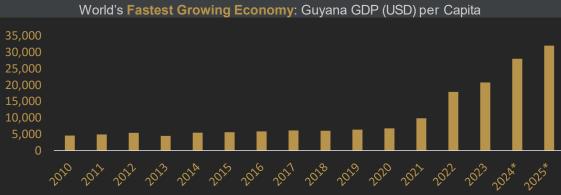

- ➤ New infrastructure investments in the last 5 yrs to meet the increasing demands of O&G sector
- ► Improved roads, bridges, deep water harbor and port development and access to power

- ► Mining-friendly and straightforward permitting
- ► English-speaking, British parliamentary system
- ► Corporate Tax: 25%; Royalty: 8% (OP), 3% (UG)

Source: World Bank, Statista

Management with Proven Discovery Track Record in Guyana

- Sector specialists in gold discovery and exploration in Guyana
- Past discoveries in Guyana exceed 10 Moz Au; Discovery cost of ~\$22/oz
- "Boots on the ground" operating experience ability to acquire / advance projects quickly
- Goal of surfacing value through exit transactions
- Repeatable spin-out strategy unlocking greater shareholder value (G3 spin-out)
- Large insider management position with disciplined capital allocation

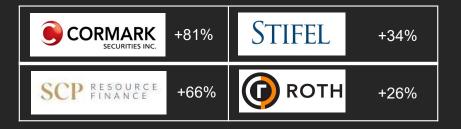

Capital Structure and Ownership

Capital Structure and Market Valuation

Common Shares Outstanding	241,911,939
Insiders (~24%)	57,279,923
Fully Diluted Shares	264,781,039
Share Price (as of Sep 2, 2025)	C\$3.17

Cash (unaudited)	~C\$20M
Average 90D Volume	~300,000

Coverage –Targets >\$4.80 / +52% Avg Return¹

AREMU WEST

Field mapping and sampling in progress

AREMU MINE

Past Producer 1906-1911 (6,488 oz@ 15.6 g/t Au) 4.5 km trend of mineralization

WARIRI MINE

Past Producer 1937-1939 (8,957 oz Au) Mapping and sampling ongoing

RED ZONE AREA

• Six holes completed, assays pending

DRILL TARGET GENERATION

NEW OKO SURFACE DISCOVERY

- 108 drill holes completed
- New resource estimate
- Included in PEA Q4 2025

NEW TARGETS - DRILLING 03/25

OKO-GHANIE RESOURCES

- 1.54 Moz (indicated)
- 1.53 Moz (inferred)

GMINING

• 4.64 Moz (probable)

OKO NW

97,200 oz@0.61 g/t Au (Inf)

Ongoing target selection -

PETER'S MINE

Past Producer 1905-1909 (41,915 oz@ 41.0 g/t Au)

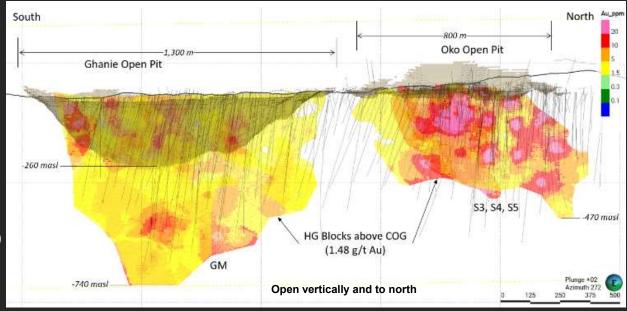

Flagship Oko-Ghanie Gold Project – 3+ Moz Mineral Inventory

Growing/Defining Guyana's Highest Grade Gold Deposit

- ► Global 3.1 Moz @ ~3 g/t Au (OP + UG)¹
 - 1.5 Moz @ 3.40 g/t Au (Ind)
 - 1.6 Moz @ 2.48 g/t Au (Inf)
- ► High-grade, near surface zones (S3,S4,S5):
 - 609koz @ 10.25 g/t Au <370m from surface (Ind)
 - 360koz @ 7.28 g/t Au <560m from surface (Inf)
- ► 2.5km N-S structure within 5km mineralized gold camp, GMIN's Oko West Project to south (+5.4 Moz Au)
- ▶ Drilling inventory: 153km in 587 holes
- ▶ Remains open at depth and to the north along strike

Oko-Ghanie Project Long Section Looking West

Higher grade, near surface equals intrinsically more favorable economics:

Faster payback period

Lower Capex & Opex

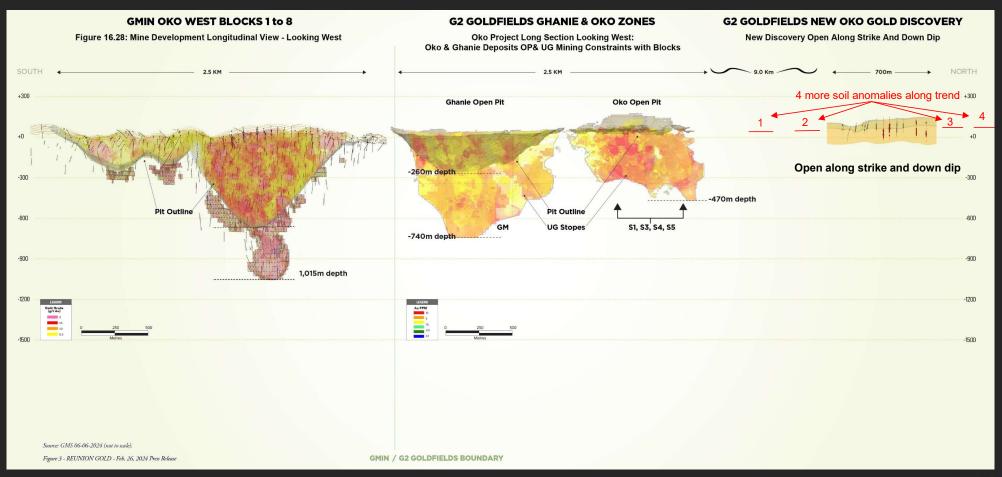

Significant Leverage to gold price

TSX: GTWO OTCQX: GUYGF

New Oko Gold Discovery Along Same Trend

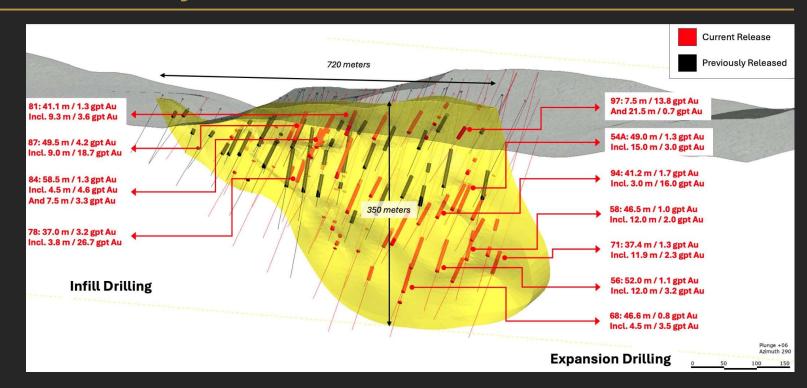

New Oko Gold Discovery - Plan View

- ► Located <10 kms north and along same mineralized gold trend that hosts Oko-Ghanie resource
- ➤ Strike length of ~720m, drilled to 350m vertical
- ➤ Recent drilling intersects broad zones of high-grade gold mineralization down plunge of original Discovery Zone
- ➤ Strike, depth and camp potential adjacent to 5km mineralized gold trend to the south hosting 9 Moz Au
- ► To be included in upcoming MRE in Q4 2025

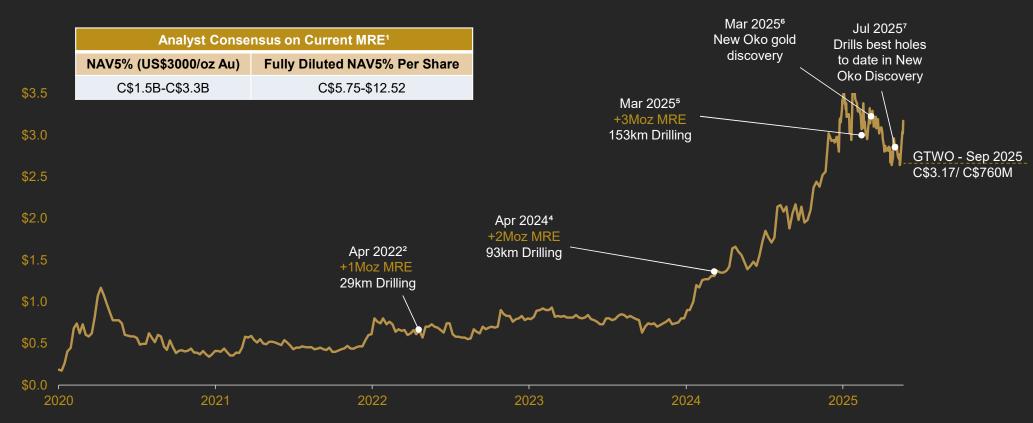

G3 Spin-Out To Unlock Greater Shareholder Value

Repeatable value creation formula in G3 spin-out

Actively Exploring News Areas

- ➤ G2 team has been exploring the Cuyuni Gold Basin for + 25 years
- ➤ Local knowledge of geology and structures
- ➤ Actively acquiring land in the district through established local presence and track record
- ➤ 10 active mapping and soil sampling teams on various targets to aid in defining drill targets

Regional Target – Aremu West

Conclusion – Repeatable Value Creation Formula

► Large, High-Grade Gold Resource

- √ +3 Moz Au @ ~3 g/t Au Oko-Ghanie Project within 9 Moz Au camp
- ✓ High-grade, near surface deposit Avg 9 g/t Au (Ind.) in Oko Main UG
- ✓ Resources remain open vertically and to north along trend

▶ New Oko Gold Discovery Provides Standalone District Scale

✓ Located within 10 km north of existing resource, ~720m x 350m defined, open

► Near Term Re-Rate Catalysts

- ✓ Updated MRE in Q4/25 to include New Oko Discovery
- ✓ PEA in Q4/25

► Near Deposit Discovery and Targets

✓ Aggressive regional program focused on near-surface discoveries across district

▶ Premier Jurisdiction

✓ Straightforward permitting - Ability to advance projects quickly

► Management With Proven Discovery Track Record

✓ Past discoveries in Guyana exceed 10 Moz Au

► G3 Spin Out Unlocking Greater Shareholder Value

- ✓ Spin-out of non-core assets + new acquisitions (in process)
- ✓ Contains past high-grade underground producers

WHY G2?
