Cautionary Note

This presentation contains "forward-looking information" and "forward-looking statements" (together, the "forward looking statements") within the meaning of applicable securities laws and the United States Private Securities Litigation Reform Act of 1995, including the Mineral Reserve Estimate and updated the Mineral Resource Estimate ("MRE") which includes La Preciosa, the Avino Mine (consisting of the Elena Tolosa ("ET") deposit, Guadalupe, and La Potosina) with an effective date of October 31, 2025. The Oxide Tailings Deposit mineral reserve estimate was completed in 2024 and is materially unchanged since its publication and has an effective date of January 16, 2024, and can be viewed within Avino's latest technical report dated February 5, 2024 for the Pre-feasibility Study and references to Measured, Indicated Resources, and Proven and Probable Mineral Reserves referred to in this presentation. This information and these statements, referred to herein as "forward-looking statements" are made as of the date of this document. Forward-looking statements relate to future events or future performance and reflect current estimates, predictions, expectations or beliefs regarding future events and include, but are not limited to, statements with respect to: (i) the estimated amount and grade of mineral reserves and mineral resources, including the cut-off grade; (ii) estimates of the capital costs of constructing mine facilities and bringing a mine into production, of operating the mine, of sustaining capital, of strip ratios and the duration of financing payback periods; (iii) the estimated amount of future production, both ore processed and metal recovered and recovery rates; (iv) estimates of operating costs, life of mine costs, net cash flow, net present value (NPV) and economic returns from an operating mine; and (v) the completion of the full Technical Report, including a Preliminary Economic Assessment, and its timing. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives or future events or performance (often, but not always, using words or phrases such as "expects", "anticipates", "plans", "projects", "estimates", "envisages", "assumes", "intends", "strategy", "goals", "objectives" or variations thereof or stating that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved, or the negative of any of these terms and similar expressions) are not statements of historical fact and may be forward-looking statements. These forward-looking statements are made as of the date of this news release and the dates of technical reports, as applicable. Readers are cautioned not to place undue reliance on forward-looking statements, as there can be no assurance that the future circumstances, outcomes or results anticipated in or implied by such forward-looking statements will occur or that plans, intentions or expectations upon which the forward-looking statements are based will occur. While we have based these forward-looking statements on our expectations about future events at the date that such statements were prepared, the statements are not a guarantee that such future events will occur and are subject to risks, uncertainties, assumptions and other factors which could cause events or outcomes to differ materially from those expressed or implied by such forward-looking statements.

Cautionary note to U.S. Investors concerning estimates of Mineral Reserves and Mineral Resources

All reserve and resource estimates reported by Avino were estimated in accordance with the Canadian National Instrument 43-101 and the Canadian Institute of Mining, Metallurgy and Petroleum ("CIM") Definition Standards. The U.S. Securities and Exchange Commission ("SEC") now recognizes estimates of "measured mineral resources," "indicated mineral resources" and "inferred mineral resources" and uses new definitions of "proven mineral reserves" and "probable mineral reserves" that are substantially similar to the corresponding CIM Definition Standards. However, the CIM Definition Standards differ from the requirements applicable to US domestic issuers. US investors are cautioned not to assume that any "measured mineral resources," "indicated mineral resources," or "inferred mineral resources" that the Issuer reports are or will be economically or legally mineable. Further, "inferred mineral resources" are that part of a mineral resource for which quantity and grade are estimated on the basis of limited geologic evidence and sampling. Mineral resources which are not mineral reserves do not have demonstrated economic viability.

Peter Latta, VP Technical Services, Avino, a Qualified Persons for the Company as required by NI 43-101, has reviewed the technical information concerning the properties contained in this presentation for accuracy and have authorized its disclosure.

Silver Producer and Explorer in Durango, Mexico

PROJECT PORTFOLIO

Avino Mine - Production

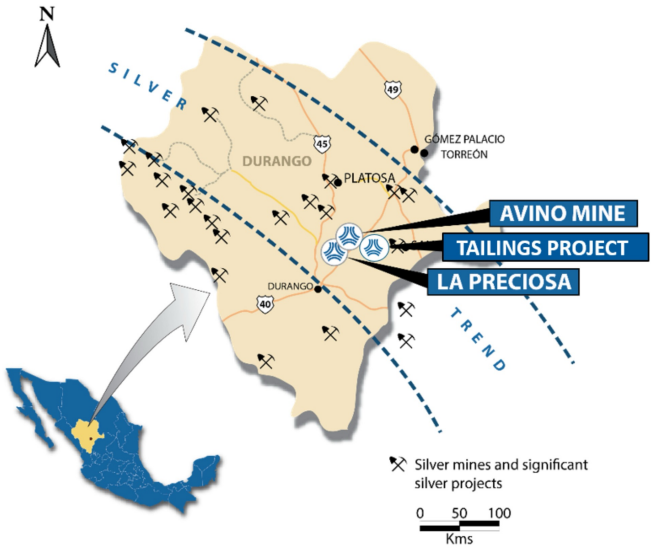

- Disciplined producer generating free-cash flow
- 500 year history & decades of mine life ahead

La Preciosa - Development

- One of the largest permitted silver assets in Mexico
- Processing at 400-500 tpd
- 19km away from Avino

Oxide Tailings Project - Development

- Pre-Feasibility Study Completed in 2024

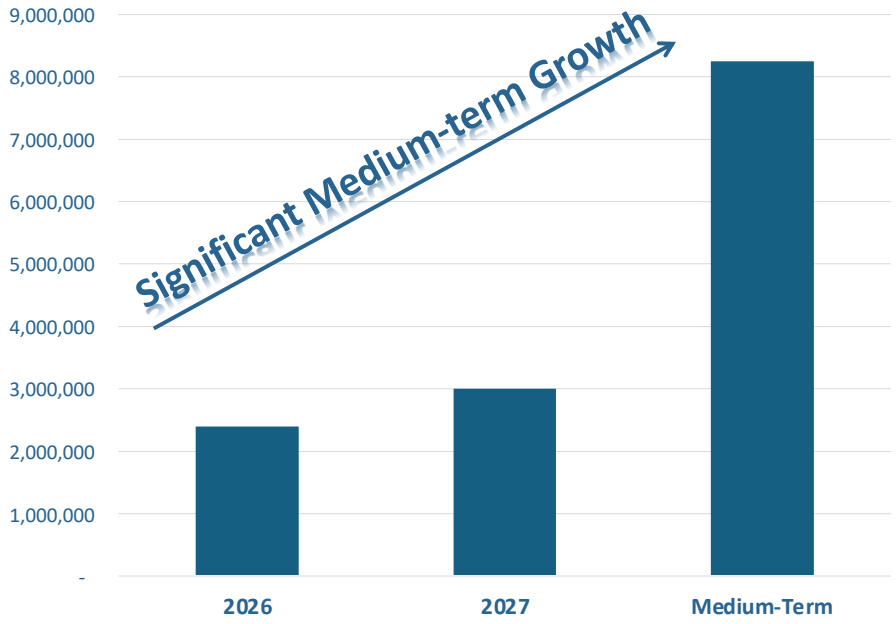

LARGE SILVER EQUIVALENT RESOURCE BASE

- **127 million AgEq oz of proven and probable mineral reserves** *NI 43-101 effective date October 31, 2025*
- **301 million AgEq Oz of measured and indicated mineral resources** *NI 43-101 effective date October 31, 2025*
- **~70% Pure Silver**

AVINO
SILVER & GOLD MINES LTD

Medium-Term Outlook: 8 – 10Moz AgEq Producer

Building a platform for sustained silver production growth

Consolidated production profile: Avino, La Preciosa and Oxide Tailing Project

Pathway to 10+ Million Silver Equivalent Ounces

- 2026 Production Guidance: 2.2M – 2.5M AgEq oz
- 2027 Production: 3M AgEq oz
- Multiple organic growth opportunities across Avino's asset portfolio

Growth Catalysts

- La Preciosa development and scale up – potential standalone plant
- Expansion opportunities at the Avino processing plant
- Trade off studies and evaluation ongoing

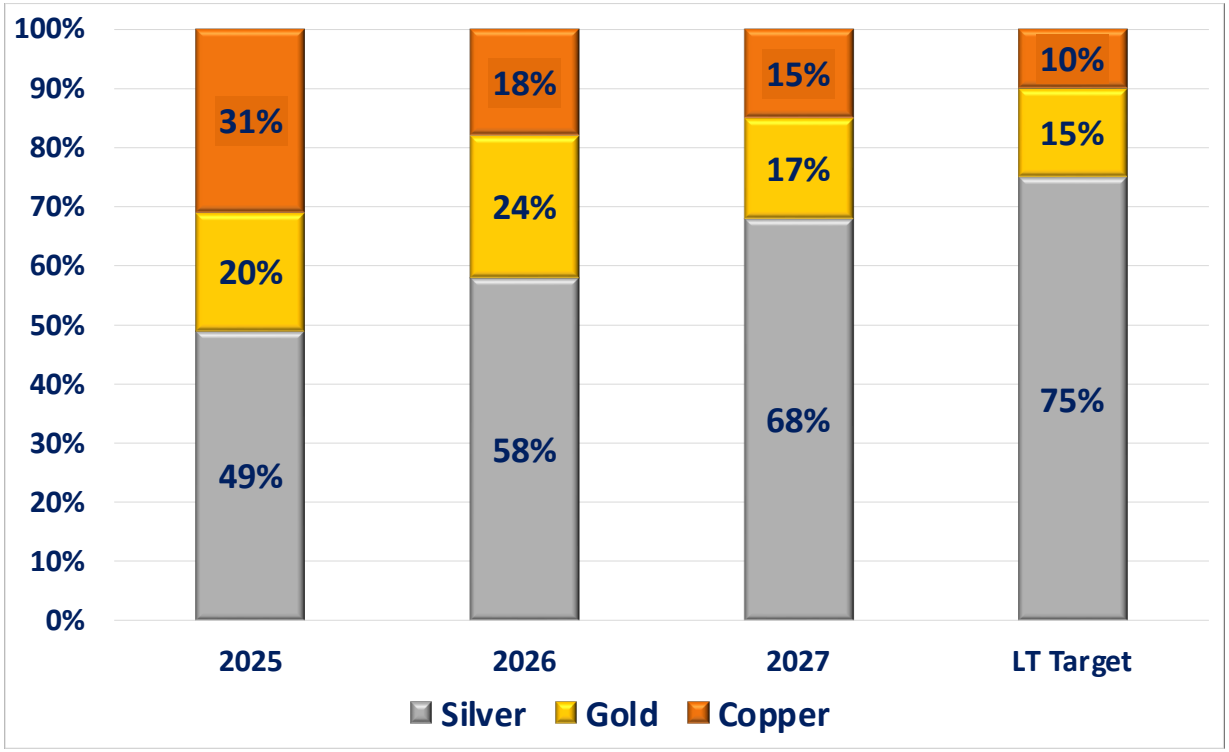

Long-Term Growth Potential

- Oxide Tailings Project
- Additional Reserve Conversion and Resource Expansion

AVINO SILVER & GOLD MINES LTD

Production Profile – Return to Primary Silver

Revenue Mix by Metal

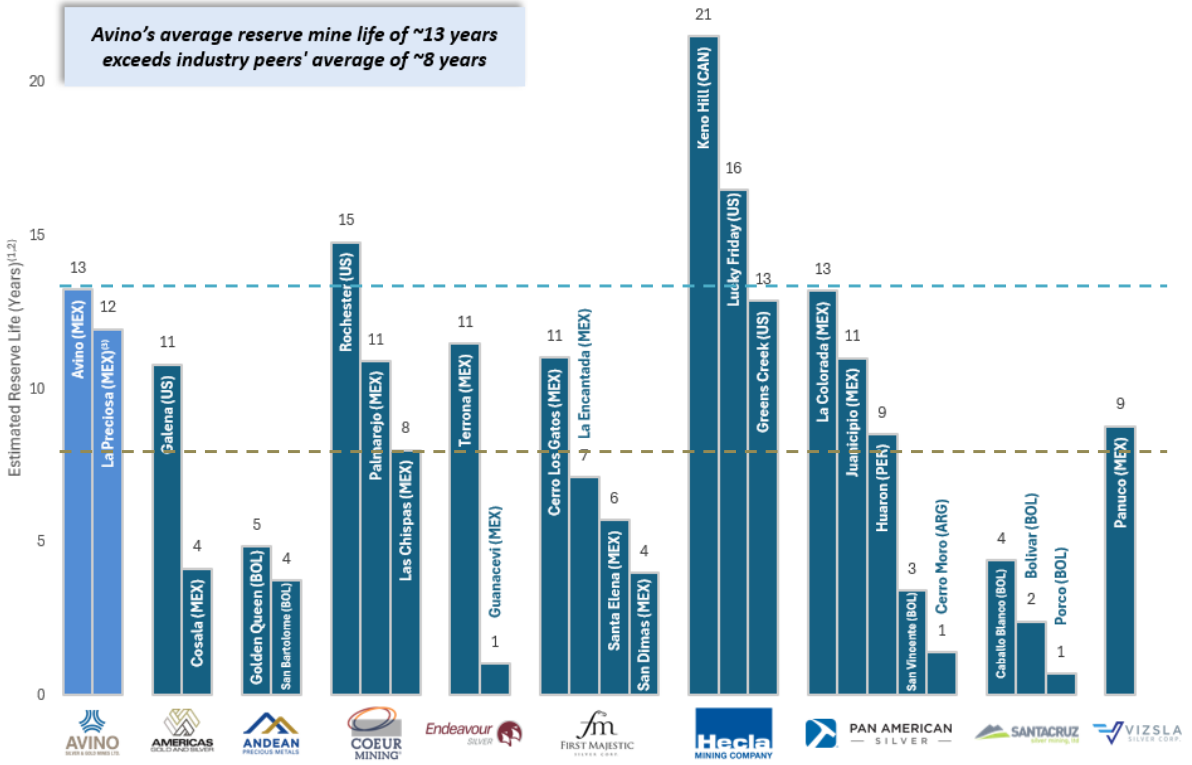

Long Reserve Lives

Avino's average reserve mine life of ~13 years exceeds industry peers' average of ~8 years

Avino's Avg Reserve Mine Life: 13 years

Industry Peers Avg Reserve Mine Life: 8 years

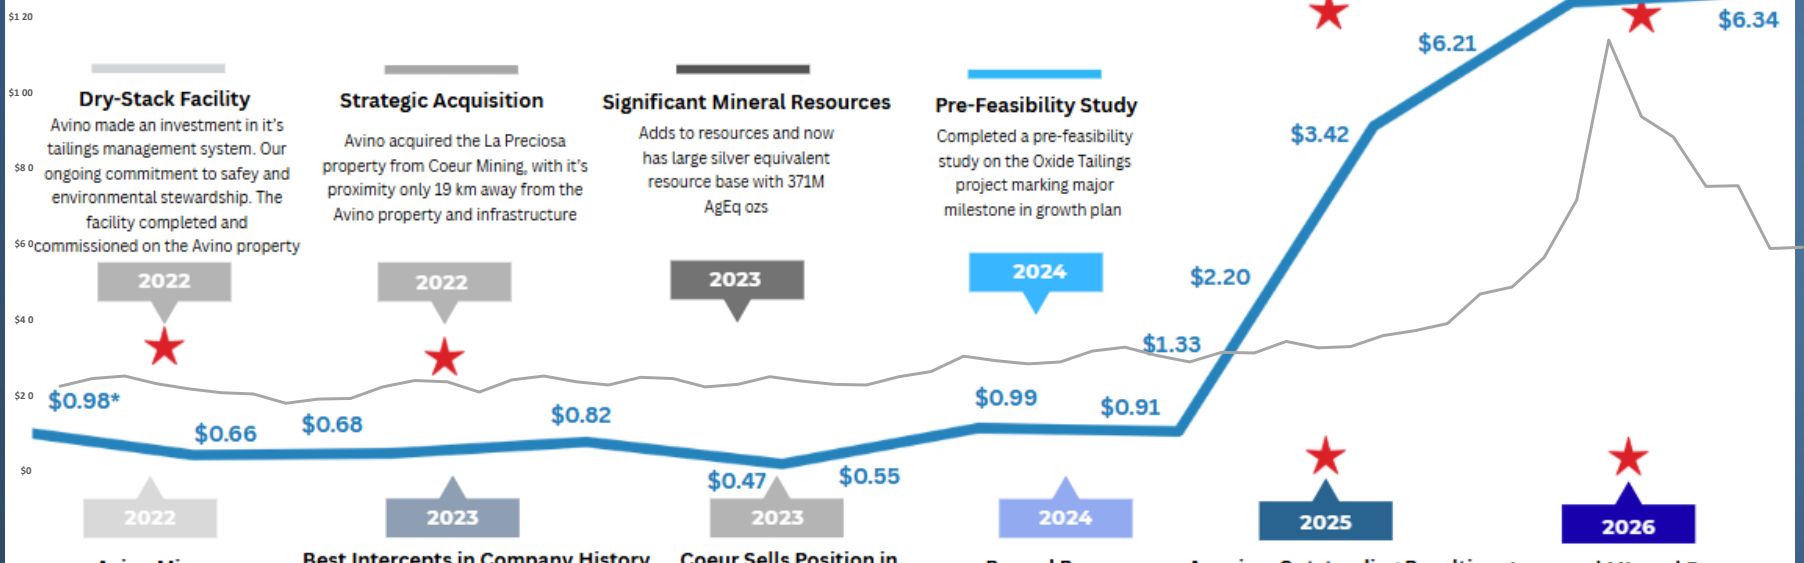

Sources: Company materials, LSEG workspace
Peers include: Americas Gold & Silver, Andean Precious Metals, Coeur Mining, Endeavour Silver, First Majestic, Hecla Mining Company, Pan American Silver, Santacruz Silver Mining, Vizsla Silver
(1) Reserve mine life calculated by dividing reserve tonnes by 2025 production throughput.
(2) Silver equivalent reserve calculated using commodity price assumptions of US$4,000/oz Au, US$50/oz Ag, US$4.50/lb Cu, US$1.00/lb Pb, US$1.20/lb Zn.
(3) La Preciosa throughput based on Avino Mill capacity (2,500tpd)
Note: Country Acronyms: US – United States; CAN – Canada; MEX – Mexico; BRZ – Brazil; CHI – Chile; PER – Peru; ARG – Argentina; BOL – Bolivia.

AVINO
SILVER & GOLD MINES LTD

TSX30

The value of Avino Recognized Through it's Transformational Growth Strategy

Dry-Stack Facility
Avino made an investment in it's tailings management system. Our ongoing commitment to safey and environmental stewardship. The facility completed and commissioned on the Avino property

Strategic Acquisition
Avino acquired the La Preciosa property from Coeur Mining, with it's proximity only 19 km away from the Avino property and infrastructure

Significant Mineral Resources
Adds to resources and now has large silver equivalent resource base with 371M AgEq ozs

Pre-Feasibility Study
Completed a pre-feasibility study on the Oxide Tailings project marking major milestone in growth plan

La Preciosa - Update
Received required mining permits, underground development commences

Recognition top TSX30
Included in the TSX 2025 TSX30 at 5th spot. Previous 3 years share performance increased 610% & market cap increased 778%

Avino Mine
Annual Production of 2.6M AgEq ounces

Best Intercepts in Company History
Drills best intercept in Company history at the ET area of the Avino System, below Level 17 of current workings

Coeur Sells Position in ASM
Coeur sells 14,000,000 common shares of Avino through secondary offering

Record Revenues
Achieves high production levels, record revenues and cash flow generation

Acquires Outstanding Royalties
Acquires all royalties and contingent payments, acheives 100% owndership of La Preciosa

Inaugural MIneral Reserves
Consolidated mineral reserves of 127M ozs AgEq and 301M AgEq oz of measured & indicated mineral reserves

*Avino's share price shown in USD

*The silver price from January 2022 until June 2026

Financial Highlights – Q3 2026

Financial and Operating Results

- Quarterly revenues of **$33.4M**
- **55%** of revenues generated from silver ounces sold, over 90% from precious metals
- **44%** gross profit margin, **49%** on a cash basis
- Net income after taxes – **$6.1M** ($0.03/share)
- Adjusted earnings* – **$14.3M** ($0.08/share)
- Operating cash flows* – **$12.7M** ($0.07/share)
- Free cash flow excluding La Preciosa development* - **$6.0M**

Balance Sheet

- Cash: **$138 million**; Working Capital: **$142 million**
- **Debt-free** excluding operating equipment leases

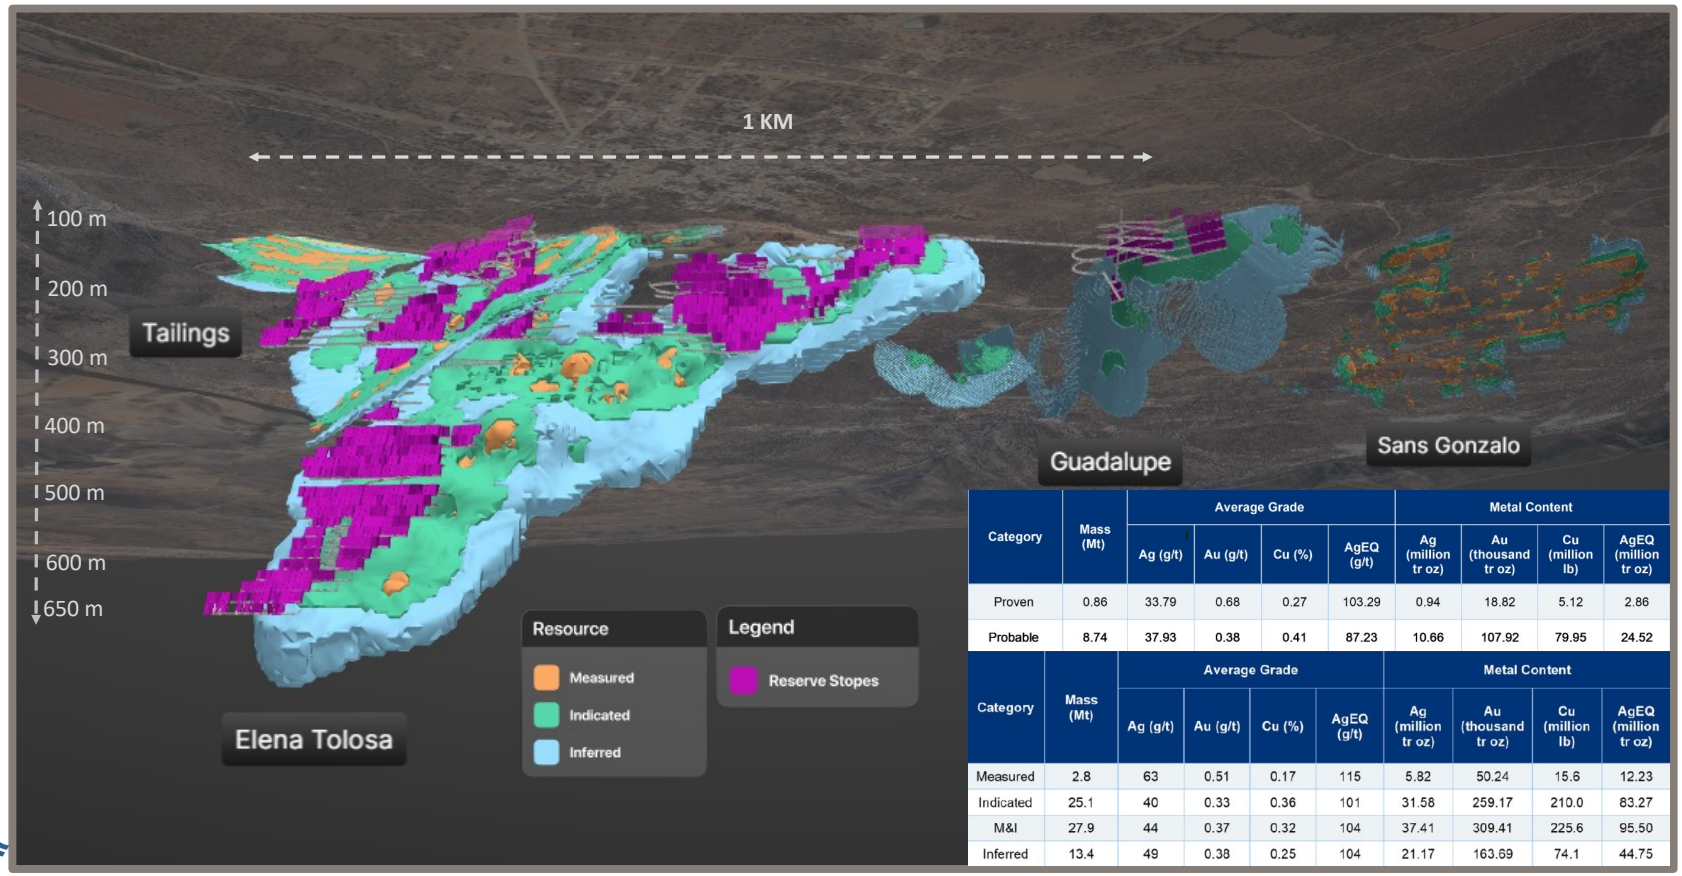

**See Footnotes & Non-IFRS Accounting Standards reconciliations sections in Appendix A*

The Avino Mine – **500 years of history**

- Mine type: Underground
- Metals Mined: Ag, Au, Cu
- 2,500 tpd flotation plant
- ~ 12 years of Mineral Reserves
- Large Mineral Resource inventory
- ~ 2-3 M AgEq ozs annually since 2015

Avino Mine Reserves and Resources

NI 43-101 effective date of October 31, 2025.

La Preciosa

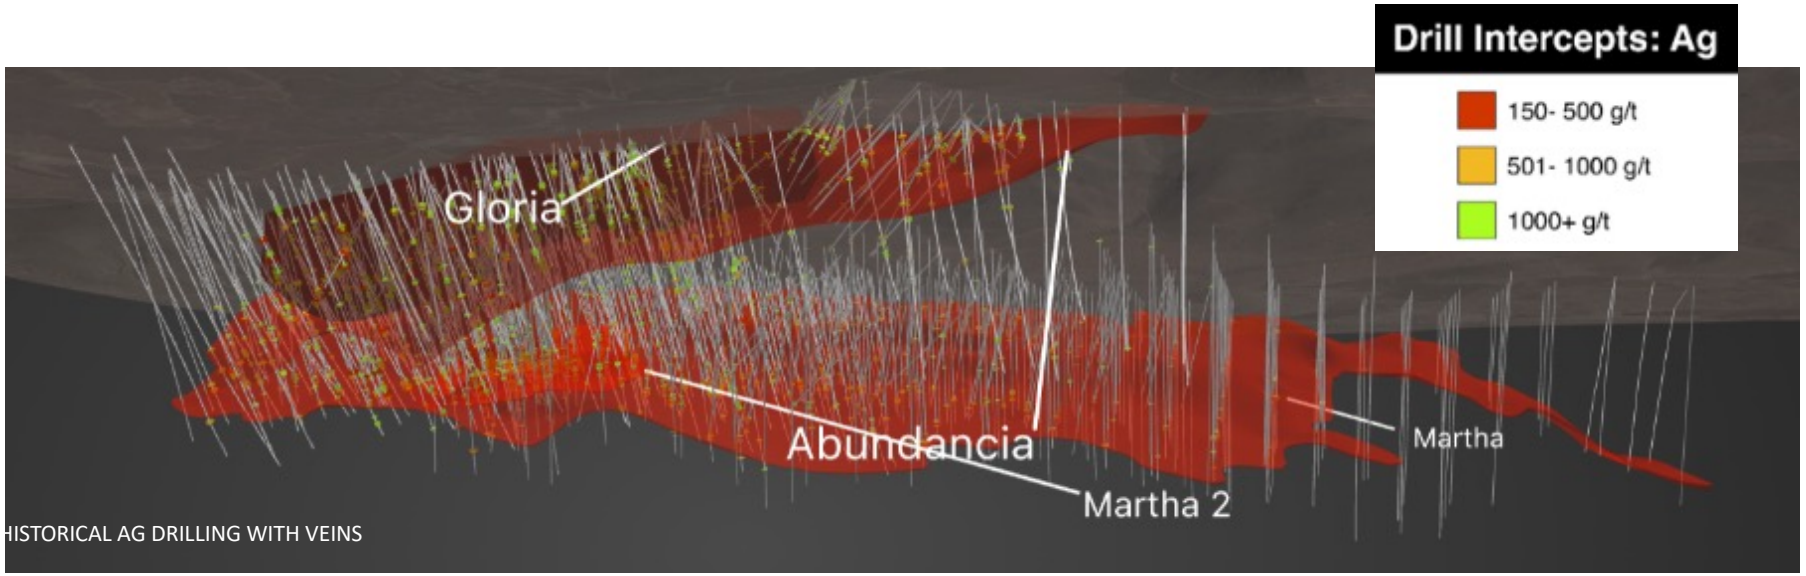

- **Acquired in 2022**
- **Metals : ~90% Ag, ~10% Au**
- **One of the largest permitted silver assets in Mexico**
- **Over 3,000 metres development completed to date**

The Avino Advantage - Infrastructure

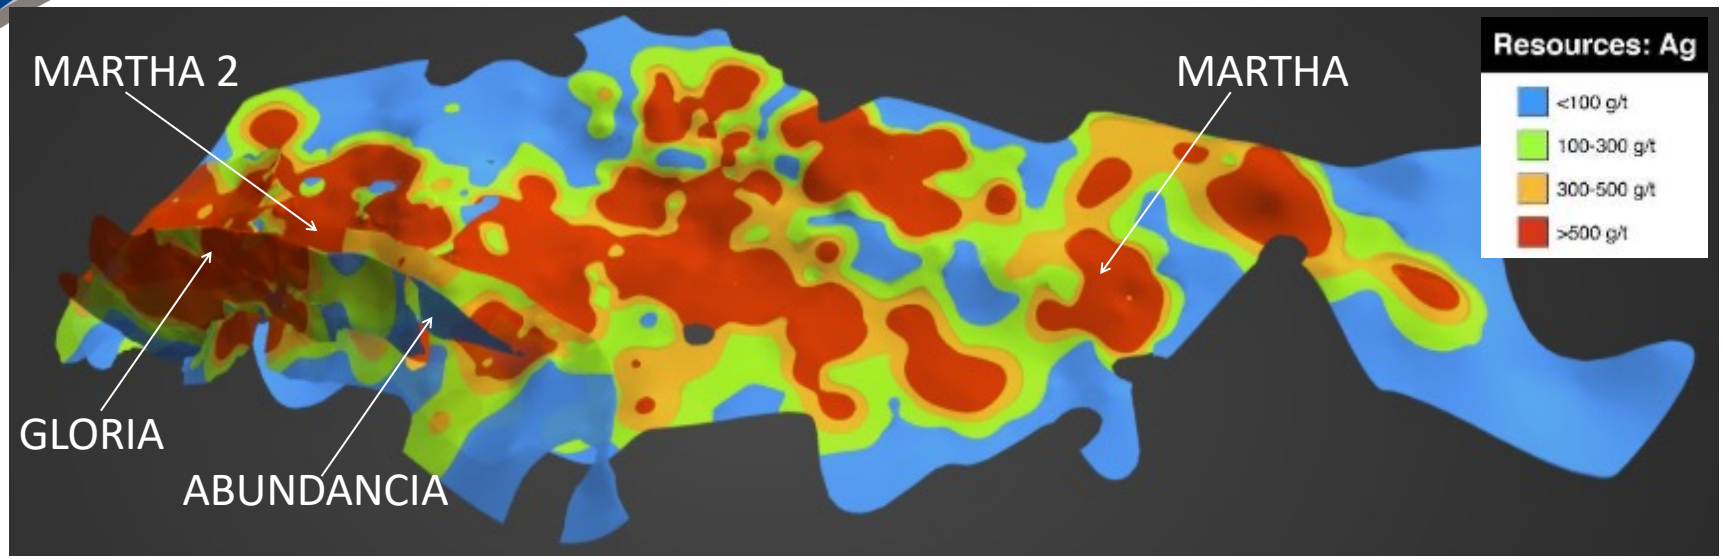

- 19 km to Avino's 2,500 tpd mill
- Paved road
- High water supply
- 100% Mexican workforce; primarily local
- Safe jurisdiction – farmland
- Dedicated powerline – 7.3MW
  - *Current excess capacity of 2 MW*

La Preciosa:
14+ Months of Progress

- ✓ Decline to Level 4 underway (+ 3,000 m advanced)

What We've learned

- Recent drilling suggests wider Gloria vein structures
- Original mine plan continues to evolve
- Optimization opportunities are being identified
- Independent Engineers engaged to deliver a strategic plan

A Disciplined Silver Producer with scale, growth and financial strength

Silver Weighted Exposure

- Silver-focused producer & explorer in Durango, Mexico
- 2.2 –2.5 M AgEq oz annual production
- Meaningful leverage to silver prices
- Growing silver contribution through organic expansion

Growth with Execution

- Clear roadmap to 8-10 Moz AgEq
- Transition toward an intermediate producer
- Largest expansion in company history
- Strong track record of delivery

Milestones Delivered

- La Preciosa → permits achieved & development underway
- La Preciosa royalties repurchased
- Oxide Tailings PFS completed
- TSX30 2026/2025 – Ranked 5th for two consecutive years

Financial Strength & Longevity

- $138M cash (as at September 30, 2026)
- 127M AgEq ozs of mineral reserves
- 301M AgEq M&I mineral resources
- Decades of mine life
- Strong balance sheet & liquidity

A Clear Path To Transformational Growth

Board of Directors

Ronald Andrews, Chairman & Independent Director	Mr. Andrews is the President of West Wind Property Inc., which is a property management and holding company. Mr. Andrews is the former owner and operator of Andrews Orchards; and was a former Director of Coral Gold Resources Ltd. from January 2010 to November 2020. He has acted as director and chairman of the audit committee of several public mining companies. Mr. Andrews has a Bachelor of Science degree from Washington State University and a Masters in Political Science. He served as a helicopter pilot in Vietnam and is retired from the United States Army Reserves.
David Wolfin President, CEO & Director	Mr. Wolfin has over 35 years of public company experience in mineral resources, including exploration, development, construction, and operations in precious metals across North America.He currently serves as President, CEO, and Director of Avino Silver & Gold Mines Ltd., listed on the NYSE American and Toronto Stock Exchange. He successfully developed the company from a minority owner of the closed Avino mine in 2001 to 100% ownership in 2006, and then into commercial production in 2012. The company has since grown to 500+ employees, with a market capitalization reaching as high as US$800 million. In 2025, Avino achieved the special honor of being ranked 5th in the TSX 30 top-performing companies on the Toronto Stock Exchange, delivering +610% appreciation based on dividend-adjusted share price performance over a three-year period. He is experienced in M&A, capital markets, brokered and private placement financings, offtake agreements (including with Samsung), at-the-market offerings, and credit facilities totaling more than US$350 million in aggregate.Mr. Wolfin was the architect of strategic transactions between Coral Gold and the Cortez Joint Venture (Barrick & Newmont), including the sale of the Robertson Project in Nevada in 2017, and later the sale of the company in 2020, which owned a sliding-scale royalty. These deals represented a 2,000% gain for shareholders over that period. Mr. Wolfin studied business and geology at Colorado State University and Simon Fraser University. Since the early 2000s, Mr. Wolfin has also managed the Oniva International Services Group, which provides administrative services to a group of mining and exploration companies, including but not limited to: Avino Silver & Gold Mines Ltd., Bralorne Gold Mines Ltd., Coral Gold Resources Ltd., Levon Resources Ltd., and Silver Wolf Exploration Ltd.
Carolina Ordoñez Independent Director	Carolina Ordoñez is the recipient of the Top 10 Most Influential Hispanics in Canada, has over 15 years of experience in the resource sector as a liaison between Governments, Corporations, Mining subsidiaries, Communities, and Investors, with extensive experience in different regions around the world, including Durango, Mexico. Former roles include Executive Member of the Vancouver branch of Women in Mining.Native Spanish speaker, Carolina is actively dedicated to promoting Latin-American culture and an influential member of the community. She has led the Board of various not-for-profit organizations and sits on the board of The Karina LeBlanc Foundation.Carolina holds a global designation in International Trade Business and International Commerce from the British Columbia Institute of Technology and a Diploma in Global Business and Politics from the Yale School of Management.
Michael Clark Independent Director	Mr. Clark serves as Executive Vice President, Chief Financial Officer & Corporate Secretary of Contango ORE, Inc. He previously served as Chief Financial Officer and Corporate Secretary for Alexco Resource Corp. (“Alexco”) from December 2014 to September 2022 at which time Alexco was acquired by Hecla Mining Company. Between 2010 and 2014, Mr. Clark served as Chief Financial Officer of Goldgroup Mining Inc. and from 2007 to 2010 Mr. Clark served as Chief Financial Officer for the Grosso Group and its member companies. Mr. Clark is a Chartered Professional Accountant and holds a Bachelor of Technology in Accounting degree from the British Columbia Institute of Technology. Between 2016 and 2020, Mr. Clark also served on the Board of Trustees for the Burnaby Hospital Foundation as Chair of the Finance Committee.
Linda Broughton Independent Director	Ms. Broughton is an accomplished mining executive with over 35 years of experience in corporate and operations roles in North and South America. She brings strong expertise in environmental geochemistry, water and tailings management, risk management, and mine reclamation. Ms. Broughton is currently a non-executive director of OceanaGold Corporation (TSX:OGC) and serves on industry review boards. From 2014 to 2023, Ms. Broughton was Vice President Technical Services for Alexco Resource Corp. as well as President of their subsidiary ERDC where she was responsible for the reclamation of an historical mining district in northern Canada. Prior to that, she held various senior environmental and engineering roles with BHP Billiton from 2005 to 2014, Compañia Mineral Antamina in Peru from 1999 to 2002, and SRK Consulting in Canada and the UK. Ms. Broughton holds a Bachelor of Science (Mining Engineering) from Queen’s University and a Master of Applied Science from the University of British Columbia. She is also a graduate of the ICD-Rotman Directors Education Program in Canada.

Avino Management

David Wolfin President, CEO & Director	Mr. Wolfin has over 35 years of public company experience in mineral resources, including exploration, development, construction, and operations in precious metals across North America.He currently serves as President, CEO, and Director of Avino Silver & Gold Mines Ltd., listed on the NYSE American and Toronto Stock Exchange. He successfully developed the company from a minority owner of the closed Avino mine in 2001 to 100% ownership in 2006, and then into commercial production in 2012. The company has since grown to 500+ employees, with a market capitalization reaching as high as US$800 million. In 2025, Avino achieved the special honor of being ranked 5th in the TSX 30 top-performing companies on the Toronto Stock Exchange, delivering +610% appreciation based on dividend-adjusted share price performance over a three-year period. He is experienced in M&A, capital markets, brokered and private placement financings, offtake agreements (including with Samsung), at-the-market offerings, and credit facilities totaling more than US$350 million in aggregate. Mr. Wolfin was the architect of strategic transactions between Coral Gold and the Cortez Joint Venture (Barrick & Newmont), including the sale of the Robertson Project in Nevada in 2017, and later the sale of the company in 2020, which owned a sliding-scale royalty. These deals represented a 2,000% gain for shareholders over that period. Mr. Wolfin studied business and geology at Colorado State University and Simon Fraser University. Since the early 2000s, Mr. Wolfin has also managed the Oniva International Services Group, which provides administrative services to a group of mining and exploration companies, including but not limited to: Avino Silver & Gold Mines Ltd., Bralorne Gold Mines Ltd., Coral Gold Resources Ltd., Levon Resources Ltd., and Silver Wolf Exploration Ltd.
Carlos Rodriguez COO	Mr. Rodriguez Moreno is a professional geologist with over 42 years of experience in underground mines and regional exploration in Mexico.Mr. Rodriguez Moreno graduated in 1984 from the University of Sonora in Hermosillo, Mexico in geology. He graduated from the Colorado School of Mines in 1998 with a degree in mineral exploration. His expertise has helped strengthen Avino's Mexican operations and leadership at the Mines. Mr. Rodriguez Moreno is very familiar with the underground workings at the Avino Mine as he was the last Chief Geologist at Avino before the operation ceased in 2001. Since his last post at Avino, Mr. Rodriguez Moreno has worked for Luzon Minerals Ltd. in the States of San Luis Potosi, Aguascalientes, Zacatecas and Durango, Mexico, as well as for Kings Minerals Ltd., an Australian mining company exploring the Cerro El Gallo project in the state of Guanajuato. He joined Avino again in 2006 as mine exploration and general manager and was instrumental in the discovery of the San Gonzalo deposit in 2007. He started rehabilitating the 250 tpd flotation circuit, brought it on line in 2010, and built the water treatment facility for treating mine water and is now moving forward to re-furbish the 1,000 tpd circuit for a total mill throughput of 2,500 tpd.
Nathan Harte, CPA CFO	Mr. Harte is a Canadian Chartered Professional Accountant (CPA) with over a decade of experience in finance roles in the fields of mineral exploration, development, production, and royalties/streaming of precious metals across North America, South America, and Africa. He currently serves as Chief Financial Officer of Avino Silver & Gold Mines Ltd., listed on the NYSE American and the Toronto Stock Exchange, joining in 2016 and assuming his current role in 2018. He has been instrumental in the growth of the finance team as Avino has successfully developed into one of the fastest-growing silver producers in Mexico, with over 500 employees and a market capitalization recently reaching more than C$1 billion. Since joining Avino, he has led financing and M&A transactions totaling over US$300 million, including the acquisition of La Preciosa and the sale of Bralorne Gold Mines Ltd. He was also CFO of Coral Gold Resources Ltd. prior to its acquisition by Nomad Royalties for C$60 million in 2020. Prior to joining Avino, Mr. Harte was with Deloitte LLP in Vancouver, where he specialized in working with public mining companies in a fast-paced environment. Mr. Harte holds a Bachelor of Business Administration (Accounting), having studied at Capilano University and Simon Fraser University, and he currently also serves as CFO of Silver Wolf Exploration Ltd.
Peter Latta, BASc, P.Eng (BC) Senior Vice President, Technical Services	Mr. Latta is a professional engineer and a 2007 graduate of the University of British Columbia with a degree in Metals and Materials Engineering, as well as a 2017 graduate of Simon Fraser University's Beedie School of Business, where he earned a Master of Business Administration. He has 20 years of operational, engineering, and commercial experience in the mining industry. Peter has worked on mining projects across six continents, including silver projects from the Yukon to southern Argentina, and brings significant experience in operational commissioning, troubleshooting, and optimization. At Avino, Peter oversees the technical aspects of the Company's operations, including technical reporting, manages commercial relationships for Avino's products, and contributes to new project evaluations. He collaborates closely with vendors across metallurgy, mining, and geology disciplines and is known for contributing to a positive, lighthearted, and inclusive culture.
Marc Turcotte Senior Vice President of Corporate Development	Marc is a mining development and exploration executive with over 20 years of experience in corporate development, capital markets, and strategic transactions within the mining sector. Most recently, he served as Chief Development Officer of MAG Silver Corp., where he played a key role over more than a decade in advancing the Company's project portfolio and corporate strategy, culminating in MAG Silver's US$2.1 billion acquisition by Pan American Silver. Prior to joining MAG Silver, Mr. Turcotte held senior roles with Hecla Mining Company and Aurizon Mines Ltd., gaining broad experience across exploration, development, and corporate transactions. Mr. Turcotte holds a Bachelor of Science in Resource Economics (Honours) from the University of British Columbia and a Master of Business Administration from the Richard Ivey School of Business.
Jennifer Trevitt Corporate Secretary	Ms. Trevitt has over 25 years of experience in securities and corporate finance. She joined Avino Silver & Gold Mines Ltd. as Corporate Secretary in December 2021, bringing extensive expertise from her 13 years as Corporate Secretary and Vice President, Corporate Affairs at Minco Silver Corporation, Minco Capital Corp. and other publicly traded companies. A certified Paralegal from Capilano University, she holds a Certificate in Mining Law (2019) and completed the Fundamentals of U.S. Securities Law at Osgoode Hall Law School (2021). She also serves as Corporate Secretary for Silver Wolf Exploration Ltd. Under Avino's leadership team, the company was recognized by the TSX in 2025 for outstanding performance, achieving a 610% increase in dividend-adjusted share price and a 778% rise in market capitalization over three years.
Jennifer North Head of Investor Relations	Ms. North has over 26 years of experience working with publicly traded mining companies in Canada. She joined Avino Silver & Gold Mines in 2016, following 17 years with Aurizon Mines Ltd. (1996–2013), where she contributed until its acquisition by Hecla Mining in a CAD$796 million stock and cash transaction. From 2013 to 2016, she was based in London, UK, where she advised FTSE-listed companies on best practices in annual reporting and capital markets communications. Since joining Avino, Ms. North has been part of the leadership team that has driven significant value creation for shareholders. In 2025, Avino was recognized by the TSX for its performance, with a 610% increase in dividend-adjusted share price and a 778% increase in market capitalization over the three years ended June 30, 2025.. Jennifer completed the Canadian Securities Course through the Canadian Securities Institute in 2009 and has been a member of the Woman in Mining UK and BC chapters. She is also a member of CIRI.
Andrew Kaplan Capital Market Strategist	Mr. Kaplan is a graduate of the University of Hartford having a major in Finance and Insurance. He is a founder of A to B Capital Management, and manages the A to B Capital Special Situations Fund, LP which was launched on January 1, 2009. The fund invests in the small cap sector through private, pre-public and publicly traded companies. In addition, he has been a Vice President of Barry Kaplan Associates ("BKA") for the past 20 years, a leading financial public relations firm for both public and private companies in the US, Canada and abroad. Prior to working at BKA, he had six years experience working at Lehman Brothers and Merrill Lynch involved in deal structure, mergers and acquisitions and trading.

1. *Silver equivalent or "AgEq" was calculated using metal prices of $45.30 per oz Ag, $3,929 per oz Au and $4.85 per lb Cu. These metal prices are based on the Company's 2026 budget as approved by the Board of Directors, and previous periods have been recalculated using these prices for comparability purposes. Calculated figures may not add up due to rounding.*

Mineral Resources Inclusive of Mineral Reserves

Area	Location	Category	Mass (Mt)	Average Grade				Metal Content

AVINO SILVER & GOLD MINES LTD

**Notes for UG Reserves, Oxide Tailings Reserves and Resources can be found in the appendix of this slide presentation.*

Footnotes

Slide 4

1. *"AgEq" production forecasts were made using long-term metal price forecasts at the time and material changes to these prices will impact AgEq production totals in future periods.*

Slide 5, 8 and 34 - 36

1. *Silver equivalent or "AgEq" was calculated using metal prices of $45.30 per oz Ag, $3,929 per oz Au and $4.85 per lb Cu. These metal prices are based on the Company's 2026 budget as approved by the Board of Directors, and previous periods have been recalculated using these prices for comparability purposes. Calculated figures may not add up due to rounding.*
2. *"Silver equivalent payable ounces sold" for the purposes of cash costs and all-in sustaining costs consists of the sum of payable silver ounces, gold ounces and copper tonnes sold, before penalties, treatment charges, and refining charges, multiplied by the ratio of the average spot gold and copper prices to the average spot silver price for the corresponding period.*
3. *Non-IFRS Accounting Standard measure. These measures are widely used in the mining industry as a benchmark for performance, but do not have a standardized meaning under IFRS Accounting Standards and the calculation methods may differ from methods used by other companies with similar reported measures. See Non-IFRS Accounting Standards Measures section for further information and detailed reconciliations.*

Slide 18, Slides 37 - 38

Notes for UG Reserves

1. *Totals may not sum due to rounding.*
2. *Underground Mineral Reserves as of October 31, 2025 are derived from Measured &Indicated Resources, account for depletion to that date, and are reported with a reference point of mined ore delivered to the plant.*
3. *Metal prices considered for the underground Mineral Reserves estimates were US$36.90/t.oz Ag, US$3,210/t.oz Au, and US$4.4/lb Cu. Other key assumptions and parameters include metal recoveries (89% Cu, 74–70% Au, and 87–80% Ag), payable factors applied on a deposit-specific basis (83–96% Ag, 95% Au, and 96.75% Cu), treatment and other smelter charges (US$134.25–68 per dry metric tonne), freight to smelter (US$45 per wet metric tonne), refining charges for silver, gold, and copper (US$0.30/oz Ag, US$6.00/oz Au, and US$0.07/lb Cu), and applicable concentrate penalties. Mining, processing, and G&A operating costs for the Gloria, Abundancia, and Martha veins were estimated at US$75.31/t, US$55.21/t, and US$60.89/t for mining; US$18.45/t for processing; and US$16.80/t for G&A, respectively, resulting in NSR breakeven cut-off values of US$110.56/t for Gloria, US$90.46/t for Abundancia, and US$96.14/t for Martha.*
4. *AgEQ grade is estimated considering metal price assumptions, metallurgical recovery for the corresponding mineral type/mineral process and the metal payable of the selling contract as of effective date.*

Notes for Oxide Tailings Reserves

1. *No material change has occurred since the 2024 PFS; reviewed by the QP and remains valid under current assumptions.*
2. *The effective date of the Oxide Tailings Reserves Estimate is January 16, 2024.*
3. *Reserves estimated assuming open pit mining methods*
4. *Reserves are reported on a dry in-situ basis*
5. *Reserves are based on a gold price of US $1850/tr oz., and silver price of US $22/tr oz, mining cost of US$1.00/t mined, milling costs of US$18.00/t feed, and USG&A cost of US$3.00/t feed.*
6. *Mineral Reserve includes consideration for 1% mining dilution and 99% mining recovery.*
7. *Ore-waste cut-off was based on US$21.00/t of NSR.*
8. *AgEQ grade is estimated considering metal price assumptions, metallurgical recovery for the corresponding mineraltype/mineral process and the metal payable of the selling contract as of effective date.*

Notes for Resources

1. *Totals may not sum due to rounding.*
2. *Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability.*
3. *The Mineral Resource estimate is classified in accordance with the CIM Definition Standards for Mineral Resources and Mineral Reserves incorporated by reference into NI 43-101 Standards of Disclosure for Mineral Projects ("NI-43-101").*
4. *The Measured and Indicated Mineral Resources are inclusive of those Mineral Resources modified to produce the Mineral Reserves*
5. *Based on recent mining costs, Mineral Resources are reported for Avino at cut-offgrades of 55 g/t, 130 g/t, 100 g/t for Avino ET, Guadalupe, and La Potosina, respectively.*
6. *Based on recent mining costs, Mineral Resources are reported at La Preciosa Agrecovery 80%, Au Recovery 70%, Ag price $36.90/t. oz., Auprice $3,210/t. oz. Cut-off grades in silver equivalent grades (AgEQ),Avino Mine – 55 g/t, La Preciosa Underground – 120 g/t, Oxide Tailings -50 g/t.*
